THE PRESIDENTS MESSAGE  
by Tom Schenk  
637-9599

Our June meeting will be held back at "The City" shopping center in "The Merchants Room" once again. This is where we met in April.

Our first car show for the year was a big success. Our next car show will be June 16th (one day) at the East Anaheim Center located at Lincoln & State College in Anaheim.

May sure was a fun month with the Bakersfield Tour where Orange Co. won so many trophies as well as Best Participation Award. The club shed was moved thanks to the efforts of Jim Douglass, Bill Vaughn, Matt Plotkin, Larry Boef and Tom Simons. Thanks also go to Jim Marsh for hosting the fine technical seminar on distributors as well as to Matt Plotkin, Arlene Schenk and Dick McNabb for their part in this years So. California Region Model A Fun Day held at Whittier Narrows.

Winners of our hat toss trophies were:

1st Place, Toby Franklin, Pomona Chapter  
2nd Place, Pat Hamilton, Paradise Valley Chapter

Pres. Message Contd.

3rd Place, Glenn Johnson, Orange County  
4th Place, Susan Read, Jewel City Chapter  
Oops went to Ella Haltman, San Fernando Valley Chapter

Mileage awards for the month went to: Steve Balmer, 1500&2000 mile patch, Glen Bowers 3000 miles, Bud Lacey 500 & 1000 miles, Jim Manos 500 miles, Vince Mariola 4500 miles, Jim Marsh 4500 miles, Tom Matthey 1500 miles, Dick McNabb 2000 miles, Virgil Stockard 4500 miles and Joe Wavra 3500 & 4000 miles.

JOHNSON'S JOURNEYS  
by Sharon Johnson  
528-0891

June 10 Anyone interested in antique automobiles should attend the Concours d' Elegance at the Ambassador Hotel front lawn. A beautiful array of Duesengergs, Packards, M G's, Cadillacs, Etc.

June 15-17\* The annual Campout is upon us. This is always a good time. A few spaces are left so if you want to go and have fun for \$14 for the whole weekend, call me now.  
SEE MAP FOR DIRECTIONS TO CAMP-GROUND

June 17 CHVA Tour- This will be discussed at the next meeting. Plans will be made for someone to lead the tour from The Orange Mall to Rancho Calif. and meet the people from the campout.

June 21-23 Beautiful Lake Tahoe will be the setting for a swap meet and car show. This could be a good vacation time for the whole family.

June 29-July 2 This swap meet is sponsored by an individual by the name of George Hawkins. Swap spaces will cost you \$30!! If you want more information about this please call me or see me at the meeting!

## Johnson's Journey's Contd

July 6-8 Car Show and Swap Meet in Ely, Nevada. This show is being put on by the club that Kathy & Lloyd Marcacci now belong to. We would like to get a large group to attend this event. Please call me and let me know if you are interested. I have names of motels that you can make reservations at.

Up Coming Dates

July 22nd Annual Beach Party  
 July 30th Baseball Night  
 Aug. 11-12 Rim of the World  
 Aug. 25th Progressive Dinner

ROUND-UP REPORT  
 by Chuck Williams  
 836-7057

Before you know it school will be out and summer will be upon us.

If you're like myself, summertime is one of the most enjoyable times of the year. However, it seems like it just gets here and it's over. Point is, Round-Up time will be here sooner than you think. Make sure you mark your calendar for Saturday October 20, 1979. It will be a fun filled day you and your family wont want to miss. Remember to tell your Model "A" buddies too!

Making the Round-Up a success is a step by step process that all comes together the day of the event. I'm very pleased with the way it's shaping up this year. Cooperation among our club members has been great and response from other Chapters has been very enthusiastic. The raffle tickets are literally selling like hot cakes. Remember, the person who sells the most tickets wins 2 free tickets to the Christmas Party. Let's all go for it!

Bill Vaughn is handling the raffle ticket sales this year, so if you haven't picked up your tickets yet see Bill at the next meeting.

I still need someone to take charge of the judging responsibilities. Come on one of you experts,

## Round-Up Report Contd.

please step forward, we need your expertise in this very important function.

The quilt is coming along nicely and Linda has a few comments to make. See you at the meeting.

 Santa Ana, Ca. 92706

Well, June is here and it is time for us to finish the quilt squares! I would really appreciate the needle work being turned in at the June meeting; that will be on June 14th. If you want to mail the square to me, it will fit nicely in a large envelope with a 15¢ stamp.

We already have several squares finished. The fast workers are: Sharon Johnson, Jim Willett & Arlene Schemk. I really appreciate their promptness. Chuck has his square over half finished and I'm contemplating my colors & design. Once you get started, the needlework seems to go quickly, try it and you'll find out! It's easier than you think.

Again, thank you all. I'm looking forward to putting the quilt together this summer when I have some free time.

\*\*\*\*\*

Thank you for supplying the cookies at the May Meeting...Darlene Matthey, Lorna Grunklee and Louis Bowers.

\*\*\*\*\*

Thanks to the following for displaying their cars at our first car show held on June 3rd:  
 Joe Wavra, Larry Boef, Kevin Vidal, Ray Gunther, Tom Simons, Steve Balmer, Matt Plotkin, Jim Marsh, Bill Vaughn, Rak Krist, Maynard Grunklee, Jim Douglass, Vince Mariola, Larry Conkol, Jerry Sterling and Glenn Johnson. Remember to help the club by displaying your car. The next car show will be on June 16th, at the East Anaheim Center. \*\*\*\*\*

TECHNICAL  
by Kevin Vidal  
847-1164

The after meeting entertainment for this month may possibly be some more old time films.

The seminar for this month will be like the last, but this time we'll rebuild water pumps. The distributor workshop seminar last month was such a success, we're to do the same thing but with Model "A" water pumps. We'll use the same format as we did with the distributor seminar which is, everybody brings an old water pump or the one you're running, new parts and some tools and we'll tear into 'em and make them better and stronger than they were before (hopefully). The place will be Joe Wavra's home. Maps at the meeting.

20 LAWS TO RESTORE A CAR BY  
Taken from The Ford Squeaks  
Humble, Texas

1. If anything can go wrong it will.
2. Interchangeable parts wont.
3. Any wire or tube cut to length will be too short.
4. Availability of a part is inversely proportional to your need for it.
5. Tolerances will accumulate unidirectionally towards maximum difficulty of assembly.
6. After a part has been completely assembled extra components will be found on the bench.
7. A dropped tool will land where it can do the most damage, or where it will be most inaccessible. Sometimes it will do both. (This is known as the law of selective gravitation.)
8. Components that must not and cannot be assembled incorrectly, will be.
9. Any error that can creep in, will. It will be in the direction that will do the most damage.
10. All constants are variable.
11. The most logical way to assemble a part will be the wrong way..

12. Dimensions will always be expressed in the least usable terms.
13. If a part can be installed incorrectly that is what you will do.
14. An adjustable spanner or wrench used to remove a component will either be too tight or too slack to replace the same part, even if you replace it immediately.
15. After the last sixteen screws are removed from a component, you will find you are dismantling the wrong part.
16. To estimate the time a restoration will take, carefully work out how long you expect the job to take, then triple it or more
17. To estimate the cost, carefully figure out all known expenditures, then Quadruple it. In both cases of time and money you may still be wrong, but not nearly as wrong as you would have been if you had believed your first estimates.
18. When you are told where you can find a part, or you see it advertised, you will find they do not have it. Many times they will be looking for the same part.
19. Random percentage will constantly be operating to your disadvantage.
20. When you find an old car being parted out, the parts you need are either gone or not usable.
