COVER CONTEST

Let's have the cover of the February Distributor drawn by one of our kids in the club (up to age 12). This was an idea from Steve Balmer. Send your entry to the P.O. Box shown on the back of this issue as the return address. We will judge them at the board meeting and the winner will be on the next cover.

Rules: (there are always rules)

1. Make it easy for the old editor to duplicate. Like stickman or snowmen.
2. Mail it in time so we will have it by Jan. 27th.
3. Include your name so we all know who sent it in.

THANK YOU, THANK YOU, THANK YOU

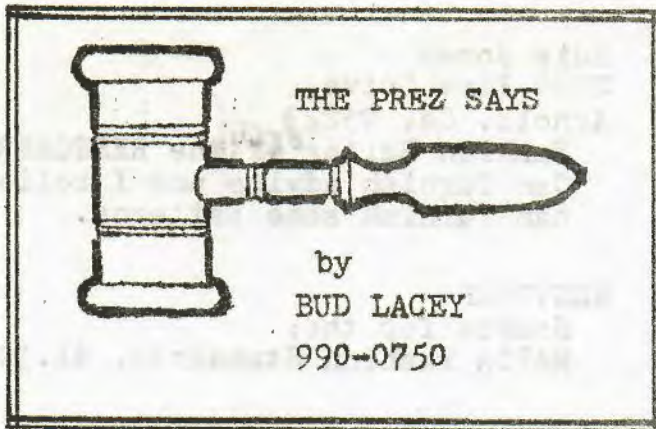

I love the beautiful quartz gold wrist watch that I received from the club. It will be a very nice reminder of all the very nice people in the club.

The first job of the new president is to establish a board. It

is completed and your 1982 board is as follows:

President,	Bud Lacey
Activities,	Jim Marquardt
Technical,	Lou Spielberger
Roundup,	Piet Dwinger
Treasurer,	Chuck Stinnett
Secretary,	Dan Simmons
Editor,	Jim Willett

In addition to the board we have the following members who have volunteered their services.

Region Rep.	Matt Plotkin
ACCC,	Larry Conkol
Raffle,	Larry and Gerry McKinney
Greeter,	Duane Robinson
Refreshments,	Charlene Marquardt
Patches,	Georgia Sterling
Flowers,	Rita Boef
Cards,	Sheila Plotkin
Adult Christmas Party,	Sheila Plotkin

This leads to my asking for a volunteer for the childrens Christmas party. If interested, please contact me.

The first club activity of the year was the New Years Eve Party, which was hosted by Piet and Judi Dwinger. Many thanks to them for a very nice party. For those of you who did not attend you missed a very good time. The weather was taken care of by a plastic cover over the entire back yard and the use of space heaters, thus all was dry and warm.

PREZ ( CONTINUED)

Also, I thank Sheila Plotkin for the super Christmas party and Lou and Pearl Spielberger for the very nice center-piece candles. This party was a first, that being me on the dance floor to fast music, which may be the last. The band was very good and a great time seemed to be had by all, including the paper airplane builders, amazing the talent we have in this club.

FROM JERRY STERLING

By the time you receive this issue of the Distributor we will have a new year and new board. I have enjoyed working with the people on the board this last year and have made many new friends. I wish the new board the best of times and hope they find as much fellowship and respect for their fellow board members as I did.

CHILDRENS CHRISTMAS PARTY  
BY Jerry Sterling

The Christmas party for the kids was great, thanks Judy. It is always a great feeling to see children with happy eyes and a smile. Plus I always enjoy the shows, and Pam Heiland sneaks me a couple of sample cookies, so my insides feel good too. All of these things are Christmas, throw in Model A talk and what more could you ask for?

TINY TIPS

From the July-August 78 issue of the Restorer.

If a bendix bolt breaks on your starter and drops down to the bottom of the flywheel housing, is it necessary to tear the whole chassis apart to retrieve it?

First, remove the starter and attach a small magnet to a metal rod. Bend to the approximate curvature of the housing.. Guide the magnet and rod through the starter hole and down to the bottom of the housing. With this home made tool and some patience, you'll get the broken part out and won't have to worry about it getting hung up with the flywheel.

The January technical seminar will be at Marsh's house on Friday Jan.15th at 7:30PM. This seminar will be on engine installation (Jim got his engine back). This should be a good one.

BOARD MEETING NOTES

Bev Marsh called the December meeting at Shakeys to order shortly after 7:30 PM (once the beer and pizza were ordered). Each of the old board members briefly explained their duties and responsibilities for the benefit of the new members. We took a short break to consume the pizza and then the new board reconvened to establish new assignments.

No minutes were read. The meeting was adjourned.

Board member assignments are:  
 President, Bud Lacey  
 Activities, Jim Marquardt  
 Treasurer, Chuck Stinnett  
 Secretary, Dan Simmons  
 Technical, Lou Spielberger  
 Editor, Jim Willett  
 Roundup, Pieter Dwinger

BEV SAYS:

Ladies, come along to the technical seminar and visit with her in the house.

There once was a man named McGiver  
Who drove every day in his flivver  
He traded it in one day  
For a brand new Model A  
And could change tires without getting a  
sliver.
