## News From the President

By Mike Edmonson

## Happy New Year!

**Welcome to 2026.** I trust everyone had a wonderful Christmas and a safe welcome to the New Year's Eve as we all welcomed in the New Year with Guy Lombardo and his Royal Canadians as they played that sweet-sounding Scottish melody, **Auld Lang Syne: Should old acquaintance be forgot, and never brought to mind....**

So this venerable old melody set to the poem by the great Scottish poet Robert Burns really brings us around to our annual event taking place this coming Sunday - January 4th, 2026. Yes, the great Installation Banquet. I encourage everyone in our club, plus family and friends, to relive some of the "Good Old Times" of 2025, to thank everyone for their most wonderful contributions to our club, and to renew those old acquaintances that Robert Burns so eloquently "brought to mind". And as a reminder, if you are so inclined to bring an addition for the raffle table, don't be shy!

Some upcoming events include the annual swap meet in Turlock the last weekend of this month, and of course our First Saturday and Fourth Thursday (subject to change) Breakfasts. And we also have our 63rd Annual Pancake Breakfast planned for April 12th at Hart Park located in the beautiful City of Orange. Unfortunately not many other events planned in the way of tours or activities, as well as technical seminars. Until someone steps forward, these will all remain TBA's, so if you have an inkling to serve, please step forward as the Board can really use your ideas and enthusiasm...and I know our club will appreciate your service too.

..."We'll drink a cup of kindness yet, for Auld Lang Syne....."

See you at the turnaround point,

*Mike*

**2026 BOARD MEMBERS**

President – Mike Edmonson  
 VP/Activities – Presently vacant  
 Secretary – Debbie Parrish  
 Treasurer – Joni Terens  
 Technical – Presently vacant  
 Editor – Eric Engle  
 Immediate Past President – Louise Hall

**COMMITTEES**

Co-Editor/proofreader –  
 Becky MacIntosh  
 ACCC Representative – David Knapp  
 Breakfast Committee – Aaron Magdaleno  
 Club Greeter – Linda Tom  
 Election Chairperson – Jennifer Ferrario  
 Historian & Librarian – Bruce MacIntosh  
 Merchandise Director – Perry Wilson  
 Pancake Breakfast Setup & Coordination – Aaron Magdaleno, Richard Bolls, Don Ratzlaff  
 Jennifer Ferrario, Kathy Glendinning  
 Raffle – Ed Cote  
 Refreshments – Gerry Reid  
 Regional Representative, SCRG – Jim Runyon  
 Era Fashions—Kaci Terens

**Orange County Model A Ford Club  
 General Meeting Minutes on  
 Meeting held at First Christian Church in  
 Orange, CA**

Normally this would be where readers would come to read the minutes of the monthly club meetings...but this isn't a "normal" month!!! This is the Christmas season, and things get changed up throughout the month in celebration of the Holiday Season.

Rather than having our normal club meeting, the O.C.M.A.F.C. members gathered together to share a Pot Luck meal and to enjoy one another's company and our shared love for the Ford Model A vehicles. It was indeed a grand evening.

While there was a short announcement of our upcoming elections for new Tour Director and Technical Director positions, time was mostly spent enjoying the meal and goodies. The subject of our next Pancake Breakfast was discussed also. The target date for that much anticipated annual event will be April 12<sup>th</sup>, 2026, and will be once again held at Hart Park in the City of Orange. This will be the 63<sup>rd</sup> year for this event, and the 38<sup>th</sup> year of holding at Hart Park.

**Phew...has it really been that long?!?.... Wow!!!**

So, all in all, this month has been a great month for our club members to celebrate "Henry's Lady", culminating with the annual Christmas Pot Luck.

**Finishing thought: Let us not forget that the O.C.M.A.F.C.'s Installation Banquet is coming up quickly, The annual event will once again be held at **The Villa in Orange on January 4<sup>th</sup>**, between the hours of 1 and 4 pm. Be sure to get your RSVP's in to **Joni Terens ASAP...****

## Upcoming Tours and Activities Calendar

Jan. 3rd, (Sat), First Sat. Breakfast, 8:00am, Denny's, 2314 17th Street, Santa Ana. Good food, good friends, good stories...the only thing possibly missing is **YOU**!!! Don't miss it...

Jan. 4th (Sun), 1-4pm, Installation Banquet, The Villa in Orange, 510 E. Katella, City of Orange.

Jan. 8th (Thurs), General meeting, 7:30 pm, First Christian Church of Orange, 1130 E Walnut, Orange (between Tustin & Cambridge).

Needs Tech. Director position filled.

Needs Tour Director position filled.

Jan. 22 (Thurs), 4th Thursday Breakfast  
TBA

## Swap Meets/Car Shows

Every Sat. morning, 6-8 am, Donut Derilicks car show. 9015 Adams Ave, Huntington Beach. Corner of Magnolia and Adams in Huntington Beach.

Jan. 24-25, 59 Annual Turlock Swap Meet, Stanislaus County Fairgrounds, 900 N Broadway, Turlock, CA.

IF YOU LEARN OF OTHER SWAP MEETS, PLEASE SEND THE INFO TO OUR EDITOR SO THEY MAY BE INCLUDED HERE.

**It's getting to be that time of year again....**

**Time for the O.C.M.A.F.C. Club's 63rd**

## **PANCAKE BREAKFAST**

**When? April 12th**

**Where? Hart Park, City of Orange**

**So mark your calendars and be sure to not miss it...**

**Members should start thinking about item they might like to donated to the Pancake Breakfast Raffle.**

# Camp Pendleton Toy Drive

It was once again time for the annual Toy Drive for the Camp Pendleton Marine families, and what a great toy drive it turned out to be! Organized by Julie Wright, and with the help of friends, neighbors and Marines, this year's toy drive was a resounding success!

Over the two days of the event, several truck loads of toys were gathered from all the friends and neighbors at the Aliso Viejo street corner location, where several Marines in their "Dress Blues" stood waiving and greeting everyone who so generously donated to the cause. Along with the Marines "standing watch" were a number of other volunteers and O.C. Model A club members with their cars on display. Everyone involved, both the generous citizens, and participants, seemed to be having a great time. Good friends, taking the time to bring Christmas joy to the families of our Marines! Good job everyone and thank you so very much...

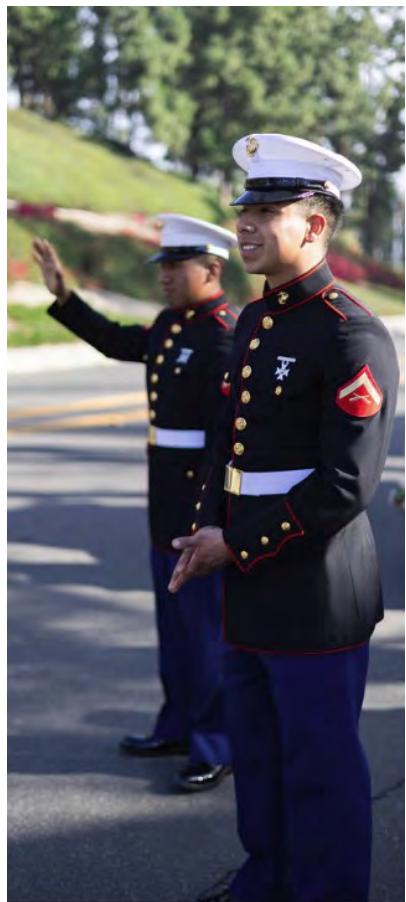

**Julie Wright;  
Der Toy-Mister.**

Julie is the organizer of this year's Toy Drive for the Camp Pendleton Marine Families. Great work Julie!

**Sunshine & Sorrow**

By Marilyn Singer  
[jmsinger@pacbell.net](mailto:jmsinger@pacbell.net)

**Sunshine:** Congratulations to **Jim & Charlene Runyon** who were married in a quiet ceremony on December 6. May your love continue to grow stronger with each passing day.

**Sorrow:** Knee replacement surgery for **Toni Cimarusti** was performed latter part of December. Physical therapy scheduled for the next couple months .

*Another new year is here . . . Another year to live!*

*To banish worry, doubt and fear! To love and laugh and give!*

Happy Birthday – January

**Jason Franks, Jen Franks, Diane Gaughen, Kathy Glendinning,  
Cindy Harris, Blake Hill, Jeffry Johnson**

**WE NEED  
YOU**

**Our Model A Club Needs  
volunteers for the Tour  
Director and Technical  
Director positions! These  
are VERY satisfying and  
necessary positions! So  
don't hesitate...get in-  
volved TODAY !!!  
Help keep the O.C.  
Model A Ford Club the  
premier club that it has  
been for so many years.**

## Christmas Lights Tour

by Eric Engle

It was a clear and cool evening: Perfect for the club's annual Christmas Lights Tour. Organized by **Doug Marsh** this year, it turned out to be a great tour of some amazing neighborhood yard displays. Thank you **Doug**.

And once again, **Ed and Patti Coté** opened their beautiful home to the group for all sorts of treats, hot apple cider, etc. And as a special treat, a Quartet singing acappella for everyone. **Wow!! What a nice surprise!**

And as if the evening wasn't special enough with all of that, a **VERY** special celebration took place for newlyweds **Mr. and Mrs. Runyon**, celebrating their "First-Day Anniversary". Yup, the happy couple had **JUST** gotten married the day before. And as a special tribute to the happy couple, the Quartet sang "Let Me Call You Sweetheart" to them. I think I may have spotted a tear of joy in the eyes of the new bride. It was all too touching and wonderful.

Thanks again to **Doug Marsh** and **Ed and Patti Coté** for an absolute wonderful Christmas event. Thank you, thank you, thank you...

Newlyweds **Mr. & Mrs. Runyon**

Deadline for submissions for the next Distributor is **25th of each month**

## A Dead Battery!

by Tom Endy

### A common occurrence:

It's not uncommon for a Model A Ford to incur a dead battery, especially those that are still operating on six volts. Model A's are usually not driven daily and prolonged periods of sitting around tend to run the battery down. It is usually discovered when you climb in to go somewhere. You push on the starter button, and nothing.

### Modern inconvenience:

What a lot of Model A hobbyist may not understand is that we the modern day owners may be contributing to this phenomenon. In a modern car when you switch off the ignition it shuts off all the electrical systems in the car, except maybe for the digital clock. In a Model A Ford when you switch off the ignition, at least the original pop out type, all you are switching off is the power that goes to the ignition points. That may have been fine in Henry's day, but stop and think about what a lot of us have done to the Model A Ford to improve on Henry's design.

### The cutout:

The cutout used with the generator disconnects the battery from the generator whenever the engine is shut down. Without it the battery would discharge itself through the generator and you would have a dead battery. The cutout has a simple set of contacts that are either open or closed. The problem with the cutout is that the contacts can sometimes become welded shut over a period of time and not open, thus draining the battery when the car is parked. This is highly likely with the poor reproduction cutouts that are on the market. Modern day advancements in electronics provided the world with the diode. The diode is like a switch (sort of) in that it has a high resistance to current in one direction and a low resistance in the other. The low resistance path allows the generator to flow current to the battery to charge it. The high resistance path is supposed to not allow the battery to drain itself through the generator. An abundance of diode mod kits were made available at all the Model A hobby stores. The cutout contacts are replaced with the diode (hopefully in the right polarity) and welded contacts are a thing of the past. However, that high resistance direction is still allowing a small amount of current to flow out of the

battery through the generator to ground. The amount of current is minute, in the millamps, but over time it draws the battery down. Turning the ignition key off does not shut the circuit off. Only removal of the fuse on top of the starter (if one is installed) will open the circuit and prevent the drain.

### The alternator:

Another modern convenience seen on many Model A's today is the alternator. It is much more efficient than the old fashioned generator. You can buy them in either six volt or twelve volt. In fact you can even buy a six-volt positive ground alternator. However, the alternator has six diodes in it and the high resistance path will eventually drain the battery. This arrangement is also not switched off with the ignition key and it sits there and draws a small amount of current from the battery.

### A failed alternator:

It is also possible to have an alternator that from all appearances is working fine. You start the car up and the ammeter shows it is charging. However, you can have one or more diodes that are partially shorted. With this situation the current drain from the battery is considerably more and in just a day or so the battery is dead.

### Good advice:

Whenever you park your car for the night or any other extended period of time. Pull the fuse out of the holder and stand it on its head in one end of the holder. This way everything except the starter switch is disconnected from the battery and there is no chance that a sneaky diode will ultimately cause you to have a dead battery. ☺

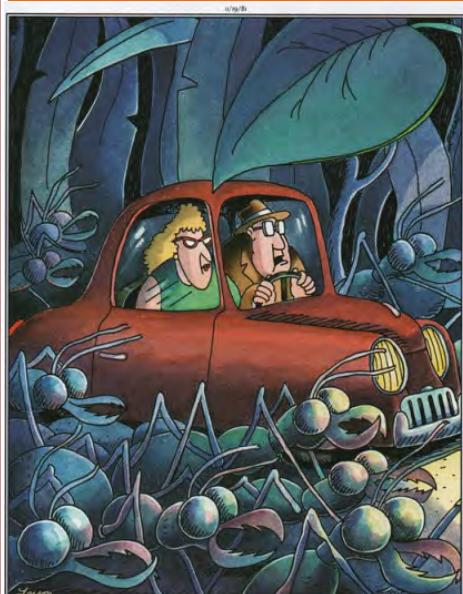

## Arcadia "Holiday Motor Excursion"

On Sunday, Dec. 28<sup>th</sup>, our very own **Steve Pavich** and his son, **Matt**, took the long drive up to Arcadia to visit the 68<sup>th</sup> annual "Holiday Motor Excursion". The event started off as a car show at the Arcadia Regional Park that ended with a tour. Some fantastic classic cars were there for everyone to view... and BOY!!, what a line up of some very rare vehicles there were! Steamers, Packards, Pierce Arrows, a slew of vintage bicycles, and naturally, Ford Model A's. And guess who else was spotted there??? The man, the myth, the legend himself.....**Jay Leno**. **Mr. Leno** brought with him his VERY rare Chrysler Turbine Car. Wow!! I would strongly encourage all of our club members to mark their calendars for next year's event. What do you say? Let's show everyone there our very own classic vehicles.

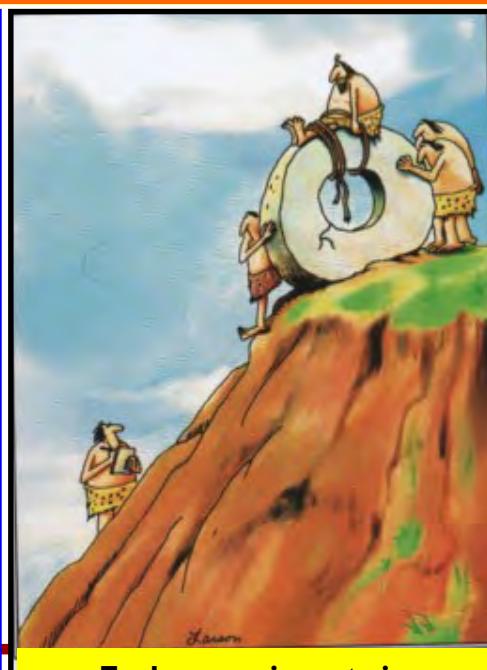

Steve and friend

### Just for Laughs

"Something's wrong here, Harriet. This is starting to look less and less like Route 66."

You still  
haven't  
learned to  
act your  
age... and  
hope you  
never will.
